REAPPORTIONMENT

The plank demanding reapportion-ment of the state, as provided by the constitution, is as follows:

"Twenty-five years ago, the state legislature reapportioned the senatorial districts of the state of Illinois. The population of Illinois at that time was 4.821,850. The population of Cook county was 2.405,233, or substantially on the total of the state. one-half of the total of the state. Nevertheless the legislature awarded to Chicago representation equivalent to less than 38 per cent of the membership of the general assembly.

Advertising's Greatest

Endorsement

Never before has the value of advertising, in establishing marketable good-will and insuring

steady yearly profits, been appreciated as it is today. Far-seeing advertising agencies have for years been preaching the value of a protected national market for identified merchandise,

Today bankers are investing millions of dol-

lars in businesses having established markets for

trade-marked goods which represent valuable good-will. The public is ready to absorb secur-

ities of such businesses because it has been educated to advertising as a part of its daily life.

A business, to have an established market and an established and increasing capital value, should be reinforced by proper advertising and the effective utilization of that advertising.

We are prepared to discuss, with interested executives, the present day tendency of businesses to consolidate, with the consequent influence on profitable refunding of advertising investments.

Oriental Rugs

A good investment—not merely a floor covering

Do you realize that Oriental Rugs are one of the few things you can buy for your home which become more valuable as they grow older? Do you realize that the Oriental Rug you buy today will—ten years from now-beworth more than you paid for it?

Such being the case, isn't it the best of good judgment to buy with a keen eye to quality?

Pushman's store has always been known for the Quality and Character of the Oriental Rugs it sells. Any rug you buy here can be depended upon to give real service. Unless we know it is a good rug we won't sell it to you. And naturally every rug you buy here carries our unqualified guarantee.

Yet it is a fact—which you can quickly prove by making comparisons—that Pushman's prices are usually less than prevail elsewhere for rugs of similar beauty and quality.

A Frock Inspired by Lanvin Today's "Robe de Style," Quaint as a Lacy Valentine!

Just arrived, this alluring black taffeta, the 1926 version of the 1848 Frock so successfully developed by Jeanne Lanvin. Successfully, indeed, for through just such artistic achievements as this, has she recently been honored by the government of France with the decoration of the Legion of Honor.

The brisk youthfulness of taffeta is her favored medium, black one of the very new notes in dinner dresses for spring. Other details, too, mark the Frock one of the most successful adaptations of her charming ideas. Especially charming are the deep cape-back bertha and sash end of ecru handmadeBelgian lace.

AN OFFICIAL STATEMENT

This Tells You Why George F. Nixon & Company and Their Associates Planned and Created This New Suburb

WESTCHESTER is a new name in the roll call of Chicago's suburban communities.

It is a new name because it is a new place.

Only a year ago, where amazing Westchester is rising in its might and beauty to-day, there was naught save peaceful, fertile farm land and forest preserve to distinguish this idyllic sweep of westward countryside that is bisected by the broad concrete of busy Roosevelt Road. You could reach it only by motor car. All other forms of transportation were miles away.

THEN the miracle, that was years in preparation, began to happen.

The news came out that an extension of rapid transportation was to be made to and through this then sparsely populated region on the fringe of Chicago's great West Side.

The public learned that fast elevated express trains would be running between the loop and hitherto unheard of Westchester in the early spring of 1926.

Realtors wondered, real estate investors wondered what it was all about.

Family

Nixon Westchester property is sold with the safeguard of Nixon Estate Protection. This costs you nothing extra but it is a guarantee that if you die, before completing payment, your heirs or estate will get the lot without further payment and a cash refund of all the money other than the down payment that

Why was rapid transportation being feverichly constructed to this place?

Most puzzling of all—why was property in the vicinity, other than a few high-priced pieces of acreage, so impossible to purchase at any

NOW the answer can be given. The real inside story can be told. Westchester came into being—rapid transportation, direct to the loop in 30 minutes, came to Westchester—because George F. Nixon and his associates dreamed and planned long and well.

These men who, one day, found that they had the same ideal—of creating, where not even the trace of a community existed, a suburb that would be the model not only of its time but ef

all times.

These men who, with this ideal before them, for years had combed and appraised the possibilities of every foot of land suburban to Chicago—seeking diligently and persistently, weighing the possibilities of every likely area with conservative consideration—until finally they came upon what is known now as Westchester—and knew that their quest was done.

You know that an area development of the mag-nitude and completeness of Westchester— sponsored by such an unusual combination of resources and abilities—is an area development

to which the best of transportation, sewerage, water, electric light, gas and telephone service could not be denied.

The rapid transportation companies and the other utility companies that are serving West-chester saw and grasped the opportunity that extension into this certain area of population growth held forth to them. They marveled, as

you will marvel when you see it, at the thoroughness of the Westchester Community Plan—at the systematic, practical location of business districts, apartment districts and homesite districts. They had a ready-made program for their own operations in this faultless advance

A long, long trail from Berkeley, Cal., led Helen Wills to the sunbaked court of the Nice Tennis club this afternoon, where she faced Suzanne Lenglen across the net for the first time and lost the mixed doubles match after the speedlest and most bitter battle ever seen on the Riviera.

Centering their savage attack on America's three time champion, Mile. Lenglen and the Baron de Morpurgo, champion of Italy, defeated Miss Wills and Charlies Aeschliman, the giant Swiss star, by scores of 6—1 and 6—2.

The match was played in perfect sunny tennis weather. It gave the first

Income Tax Forms for 1925

BULLS AND

DENDING enactment of the new revenue act, Internal Revenue Collectors are advising taxpayers that there is nothing to prevent the closing of books and the computing of net income at once. Such computations will not be affected by any provisions of the new act. The Government blanks will not be available until after the new revenue act has become law.

For Immediate Use

We have had reprinted a limited supply of Work Sheets for incomes in excess of \$5000 which were prepared by Joseph J. Mitchell for last year's returns. These sheets provide separate columns for all items of income and outgo. From them you can prepare, easily and promptly, the 1925 Government Blanks.

We shall be glad to furnish copies of these Work Sheets upon request.

THE MAYTAG COMPANY
NEWTON, IOWA

VOTY Effective: Newton, Iowa

. January Twelve

The Register and Tribune, Des Moines, Iowa.

Gentlemen:

We have decided to make a considerable increase in our appropriation for advertising in The Register and Tribune this year. Our experience with Sunday Register advertising has been so satisfactory that we are now going to use the Daily Register and Tribune as well. You will receive in a few days from our advertising agents, the Cramer-Krasselt Company of Milwaukee, additional contract for 10,000 lines in your daily issue.

Our investigation has disclosed a host of important dealer points in Iowa without local newspapers where The Register and Tribune has a heavy circulation. We are going to pool the advertising allowance of these small towns this year and expend the money for Maytag advertising in the Daily Register and Tribune, as well as continuing in The Sunday In this way we feel we will get as near complete coverage as is possible to attain.

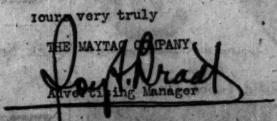

The plan of listing the names and addresses of all of our Iowa dealers in our Sunday Register advertising has proven very effective, and is highly valued by them. It tells your readers of the closest place where the Maytag may be seen.

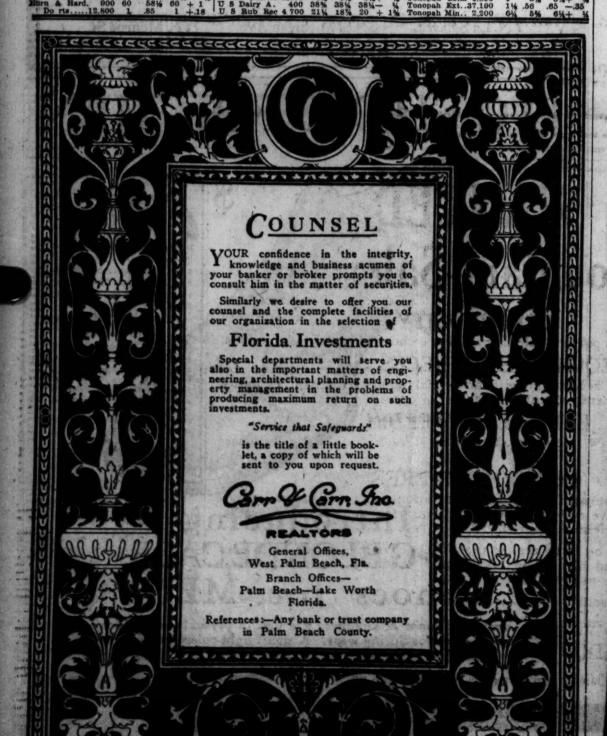

last week at our annual sales convention our Iowa salesmen volunteered many favorable comments on the copy we have been running in The Sunday Register. The greatest reaction came from the older salesmen who were with us before this advertising was started. It gave us a great deal of satisfaction to hear these salesmen tell how much easier it is now to interest a woman in a Maytag compared with what it was before.

The fact that our expenditure for The Sunday Register alone, to say nothing of our additional appropriation for your daily edition, is approximately two and one-half times as much as we are appropriating for any other Iowa publication, shows what we think of it as an advertising

The following information has been furnished by Mr. L. A. Watres, President of the Company:

HISTORY AND BUSINESS: The Spring Brook Water Supply Company, incorporated in Pennsylvania in 1896, operates under perpetual franchises. The Company owns or controls an extensive gravity system of water supply and reservoirs in and about the Wyoming Valley, Pennsylvania, supplying 64,000 customers in the cities of Wilkesbarre, Pittston and the south side of Scranton, and mare than forty other municipalities in the same district. The total population served is approximately 375,000. The aggregate capacity of the Company's reservoirs is 11,300,000,000 gallons, and there are more than 690 miles of pipe lines.

SECURITY: Upon retirement on April 1, 1926 of the Company's \$5,000,000 First Mortgage 5% Gold Bonds these Bonds will be secured in the opinion of counsel, by a direct first mortgage, subject to \$1,000,000 underlying bonds, on all the physical properties of The Spring Brook Water Supply Company, which are conservatively carried on the Company's books at over \$18,900,000, or more than twice the total mortgage debt.

Bonds of this issue are reserved to refund said \$1,000,000 underlying bonds, and additional bonds may be issued only in accordance with the conservative restrictions of the mortgage.

PURPOSE OF ISSUE: Proceeds of the sale of these Bonds will be used in part to reimburse the Company for the retirement of \$300,000 underlying bonds which matured January 1, 1926 and to retire \$5,000,000 First Mortgage 5% Gold Bonds which will mature April 1, 1926.

EARNINGS: For the year ended December 31, 1925, net earnings available for interest before deducting depreciation and Federal taxes, were approximately 2 1/3 times present annual interest requirements of the total amount of bonds outstanding, including this Issue, and for the five years requirements of the total amount of bonds outstanding, including this Issue, and for the five years ended December 31, 1925, averaged approximately 2½ times such present interest requirements.

To is expected that definitive bonds will be ready for delivery on or about March 1, 1936. We offer the above bonds, when, as and if issued and accepted by us, subject to approval of legal details by our counsel, Messes. White & Case.

Interest payable January 1 and July 1. Principal and interest payable in New York in United States gold coin of the present standard of weight and fineness. Redeemable, prior to maturity, at 103 and accrued interest on or before July 1, 1930; at 101 4 and accrued interest after July 1, 1930, and on or before July 1, 1931, and thereafter until maturity at 101 and accrued interest. Coupon Bonds of \$1,000 denomination registerable as to principal only. Bankers Trust Company, New York, Trustee.

A Sinking Fund will be provided sufficient to retire over one-third of this issue by maturity, the Company having the right to purchase Bonds in the open market for this purpose or to call them by lot at the prices stated in the provisions for redemption.

The following is summarized from the letter of Mr. J. B. Aldred, President of the International Power Securities Corporation, and from information supplied by the Italian Gas Company:

BUSINESS: The International Power Securities Corporation was incorporated in 1923 under the laws of Delaware and was organized by prominent American interests primarily acquire carefully selected securities and obligations of leading gas, electric light and power companies operating in the United States or foreign countries. The operations of the Corporation are under the direction of the following men, most of whom have had long experience in the management of successful gas, electric light and power generating and distributing companies: J. E. Aldred, Chairman, Consolidated Gas Electric Light & Power Co. of Baltimore; A. W. Burguard, Chairman, International General Electric Co.; C. A. Copun, Director, General Electric Company; Armura V. Davis, President, Aluminum Company of America; J. W. Lier, Vice-President, New York Edison Company; Sir Herred S. The Corporation's present authorized and subscribed capitalization is \$5,000,000, of which \$1,000,000 has been paid in cash, the balance being subject to call. In addition to the \$5,000,000 Series D Bonds constituting this issue, the Company has outstanding \$4,000,000 Series B 61/4% Bonds due December 1, 1954, and \$10,000,000 Series C 61/2% Bonds due December 1, 1955.

SECURITY: These Bonds, in the opinion of counsel, will be a direct obligation of International Power Securities Corporation and will be specifically secured by the obligation of the Italian Gas Company and three of its most important subsidiaries in the principal amount of \$5,000,000, payable in United States gold coin. The Indenture evidencing the obligation of the contracting Italian Companies will provide, as additional security, for the deposit with the Trustee of certain shares of some of the contracting and other allied operating companies, the present market value of which shares is estimated by Italian bankers at \$10,380,000. The current dividends paid on the stock to be pledged are alone more than sufficient to cover the interest requirements on these Bonds. All of the contracting companies and the companies whose stock will be pledged are, in the opinion of Italian Counsel, free from mortgage debt; and the contracting Italian companies will covenant to place no mortgage on their properties while the obligation securing this issue is outstanding.

ITALIAN GAS COMPANY, TURIN: Organized in 1838 to manufacture and distribute gas in the City of Turin, but now both an operating and holding Company, the Italian Gas Company is the largest and most successful in the gas and by-product chemical field in Italy. It has acquired controlling interests in most of the gas companies in the large industrial sections of northern Italy, operating in Milan, Turin, Venice, Florence, Savona, Alessandria and twenty-two other cities. The Company also holds controlling interest in coke oven and by-product plants and other enterprises allied to the gas industry. The properties are well maintained and the equipment and machinery are adequate and efficient. The territory served in these cities and towns comprises a population of

EARNINGS: The net earnings of the Italian Gas Company for the fiscal year ending March 31, 1926, available for interest will be, it is estimated, not less than 25,000,000 Lire (\$1,000,000) based on actual figures up to January 1, 1926, or over 2.8 times total annual interest requirements.

EQUITY: The capital stock of the Italian Gas Company paid dividends in 1924 of 20% and is currently paying at the rate of 25%. It is listed on the Bourse in Milan, Genoa, Rome, and Turin and at current quotations has an indicated valuation of more than \$17,800,000. Since May, 1925, the price range in lire has been High 550,

STOCK PURCHASE WARRANTS: Each \$1,000 Bond of this issue will bear a stock purchase warrant entitling the holder to purchase twenty shares (par 100 Lire each) of the stock of the Società Italiana per il Gas at 410 Lire per share for stock subscribed for after March 31, 1916 and through December 31, 1926; at 430 Lire during 1927; at 440 Lire during 1928; at 430 Lire during 1929; and at 460 Lire during 1930. For subscriptions before January 1, 1927 warrants must be presented with the bonds to which they were attached. PLANNED SUCCESS

Money Success Is a Matter

If you have trudged along the road of toil:

If you have wished, as do nearly all children and grownups, for that sudden flow of easy gold which does not come

If you have watched the rich man ride by in splendid ease, and envied him; If overmuch of your life has

passed with no harvest of dollars to show for your labors:

Then you should be ready to learn about Planned Success which deals with the problem of succeeding, money-wise.

ter of Plan."

Planned Success is based on a few simple rules rules that are easy to learn and not difficult to remember—that will help simplify your problems of

There are three requirements for the successful use of this plan, aside from that of having

A desire to succeed moneywise; A decision to follow the olan; A determination to stick to it. These three D's are worth remembering.

This Plan will appeal to those who have obligations to meet at fixed periods of the year; who wish a more definite plan for building up a personal

In short, those who wish to systematize their money outgo so that it evens up with income and leaves a surplus.

This quotation is from the book, Planned Success:

"Almost any business would fail utterly if conducted as unsystematically as the affairs of the average individual are conducted. Many are poor organizers in matters of personal finance.

Pacific Coast Joint Stock Land Banks

Five Per Cent Bonds Price 103 and Interest

To yield about 4.60% to the optional date (1935) and 5% thereafter

Redeemable at par and interest on any interest date after ten years from date of issue. Acceptable at par as security for Postal Savings and other deposits of Government funds.

Of these bonds \$1,000,000 are obligations of the Pacific Coast Joint Stock Land Bank of San Francisco, dated June 1, 1925, due June 1, 1955; \$250,000 of the Pacific Coast Joint Stock Land Bank of Los Angeles and \$250,000 of the Pacific Coast Joint Stock Land Bank of Salt Lake City, dated Sept. 1, 1925. due Sept. 1, 1955. The officers of these Banks are among the most prominent and successful bankers on the Pacific Slope and the Land Banks are owned or controlled by the stockholders of nine Pacific Coast Banks and Trust Companies, having total resources of more than \$500,000,000.

The Banks operate under Federal charter and Government supervision. The issuance of their bonds and the collateral pledged as security have been approved by the Federal Farm Loan Board, a bureau of the Treasury Department of the United States Government. By decision of the Supreme Court of the United States, the constitutionality of the Act creating the Joint Stock Land Banks and the tax exemption features of these bonds were fully sustained.

These bonds are secured by either first mortgages on farm lands or United States Government bonds or Certificates of Indebtedness deposited as collateral. The liability of the banks' stockholders is double the amount of their stock.

We recommend these bonds for investment and shall be

INTEREST PAYABLE WITHOUT DEDUCTION FOR NORMAL FEDERAL INCOME TAX NOT TO EXCEED 2% THE ISSUANCE OF THESE BONDS HAS BEEN AUTHORIZED BY THE ARKANSAS RAILROAD COMMISSION The following information is summarized by Mr. Albert Emanuel, President, from his letter to us and from auditors' and appraisers' reports and other reliable sources:

BUSINESS: The Southwest Power Company owns and operates public utility properties serving directly at retail, without competition, electric light and power to McAlester, Alva and Hartshorne, Oklahoma; Fayetteville, Rogers, Eureka Springs and Harrison, Arkansas, and to 24 other communities in these states. In addition, the Springs and Harrison, Arkansas, and to 24 other communities in these states. In addition, the Company supplies electricity at wholesale to the Public Service Company of Oklahoma for distribution in Atoka, Coalgate, Lehigh and Phillips, Oklahoma. Through a subsidiary, the Company furnishes street railway service in McAlester, and interurban and freight service to Krebs, Alderson, Hartshorne and Haileyville, Oklahoma.

The territory served by the Company has a total population estimated at 80,000, and is experiencing a substantial development, due not only to its important coal and mineral d posits, but also to the diversity and volume of its agricultural products.

SECURITY: The First Mortgage Bonds are secured by a direct first mortgage on all the fixed property of the Company, subject only to \$150,000 par value of divisional 6% Bonds now outstanding on a part of the property only. The First Mortgage Bonds are also further secured by a pledge with the Trustee of all outstanding bonds

and stock (less Directors' qualifying shares) of the Pittsburg County Railway Company. The issuance of additional First Mortgage Bonds is subject to the careful restrictions of the mortgage. These bonds are followed by \$960,500 par value 7% Cumulative Preferred Stock, a large part of which is owned by customers in the territory served, and 21,000 shares of Common stock, all of which (except Directors' qualifying shares) is owned by National Electric Power Company.

EARNINGS: The consolidated earnings of the properties owned by the Southwest Power Company and its subsidiary, for the twelve months ended November 30, 1925, were as follows:

Net Earnings as shown above are thus equal to practically twice the annual interest requirements on all outstanding bonds, including this issue.

2d Evening Paper. 198,470 Sun's Lead. 43,082 THE continued leadership of The Sun in advertising among New York evening newspapers was more pronounced in January than ever before.

In January The Sun led the second New York evening newspaper by 229,498 lines. The Sun's lead during this month was nearly a hundred thousand lines greater than in any preceding month.

The Sun's gain in total advertising in January of this year compared with January of last year was 206,894 lines. This was 72,204 lines more than the combined gains of all the other New York evening newspapers.

National Advertisers have found through experience that The Sun is an extremely effective medium through which to sell their products in New York and for this reason, month after month, and year after year, they use more space in The Sun than in any other New York evening newspaper.

Advertisers prefer The Sun to all other New York evening newspapers because of its demonstrated superior selling power—a selling power that is due to an unusually responsive circulation.

The Sun is read by people who have the means as well as the desire to buy what they need and want—people who have confidence in The Sun as a newspaper and who respond readily to the advertisements which it publishes.

A very rigid censorship on all advertising is maintained.

les. If it is stiff and hard you cannot spread it. And who melts butter when they want bread and butter?

After telling my neighbor how to treat the butter she tried the creamy butter, got a smooth and velvety dough which would stretch, and a cookie that delighted her. It was just what she wanted, and of the type that she had been paying one dollar a pound for. The dough was rolled thin on a flour strewn board, brushed with the beaten egg and baked for about 20 minutes in a 375 degree oven. But each must learn what her own oven will do in such baking. Cookies. destined, seemingly, for a dramatic career. The cooking editor can but be thankful there are only a few such, but one of these lately has been a cookie recipe—this one: Three-eighths of a cup of butter, one-fourth of a of a cup of butter, one-fourth of a cup of sugar, two egg yolks, one and one-fourth cups of flour, a bit of sait, some flavoring and an egg with which to brush over the cookies, plain or beaten with sugar for that work.

Like other cookies you may use the pie crust method on this, or you may cream the butter perfectly, then work in the sugar and the other ingredients in turn, kneading it all when

work in the sugar and the other ingredients in turn, kneading it all when these are combined for about 15 minutes, cooling the dough for half an hour, after which it is rolled and cut. Now the dramatic effort last connected with this recipe was the trouble that came about because the sugar had been omitted in the printing. My bridish young neighbor had been watching for just such a recipe, so she and a few others immediately held me accountable for the mistake. Once finding out how much sugar to use ling out how much sugar to use— one-fourth cup—she put the in-dients together and was quite un-

"Our adopted son, 12, wants the one-fourth cup—she put the ingredients together and was quite unhappy to get a crumbly mass which should combine in a ball but had not, under her hands, and even when it was combined it gave a granular and greasy dough. Then I thought to quise her about the butter. She had taken it from the icebox and melted it.

If one wants to butter bread the ideal condition of the butter is exactly that for creaming it for cake or cook—

Elmer Shares Music Thrills with Readers

Finds Yesterday Time for Superlatives.

BY ELMER DOUGLASS.

First, then, the Chicago theater's Sunday musical hour, W-G-N, 11:45 a.m. The writer grieved when this program disappeared from the air months ago, and he is equally happy that it has returned. If the theater's concert ensemble plays as choice a program every Sunday as yesterday's, then the present concerts surpass that of last year.

Edwin Stanley Seder's organ recital from the Lyon & Healy studio, W.G.N. 2 to 3. Once again the writer feels justified in pronouncing this the best radio organ recital in the country. The selections are of the choicest, played with the musical appreciation and technical finish that one would expect from this artist. ct from this artist.

Ag for the Chicago Philharmonic or-chestral concert, North Side Turner hall, W.G.N. 3 o'clock, the writer begs, literally begs, every orchestra conduc-tor and director in Chicago to give this concert a severely critical listenthis concert a severely critical listening through an owned or borrowed
radio set. It is a symphony orchestral
concert perfect to the last detal in
playing, handling, and in choice of sejections. Credit to Richard Czerwonky,

Here steps in WJAZ, 7 to 9, with a program by the Girvin Little Symphony orchestra, playing three movements of Mozart's "Jupiter" symphony orchestra, playing three movements of Mozart's "Jupiter" symphony, the Peer Gynt suite, Weber's "Oberon" overture, and many other works. Sophie Brandt, soprano, the soloist. Congratulations all around.

Lastly, Charles Hackett, one of "America's great stars in the operatic firmament, through W-G-N, 8:15 p.m. In the early portion of the recital we realized why this artist shines so "brilliantly in the operatic world. formation spread in government circles tonight that the department of justice was prepared to move quickly against certain phases of alleged bread and food products mergers.

From federal trade commission sources it developed that the legal department of the government had requested of it information dealing with the food products question.

Only last Thursday the trade commission ordered a special investigation into the new Ward corporation be conducted by its legal department.

Sure Way to Get Rid of Dandru

There is one sure way that never iails to remove dandruff completely and that is to dissolve it. Then you destroy it entirely. To do this, just get about four ounces of plain, ordinary liquid Arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most, it not all, of your dandruff will be gove, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itch-ing and digging of the scalp will stop instantly, and your hair will be lustrous, glossy, silky and soft, and look and feel a hundred times better.

At 20 one does expect a young woman to have acquired sufficient reasoning power to know that when a man is in love with a girl he doesn't just treat her nicely part of the time. He would never, never be rude enough to ignore her entirely on any single occasion. He just wouldn't jeopardize his own prospects.

BEAUTY ANSWERS

J. R. T.; YOU MAT TREAT THE calmes yourself. Soak the feet in hot waits for half an hour at night. This softens them. Then rub with a piece of fine pumice to take off the hard skin, and keep the callus growth from rowing too rapidly. During the day keep a little cold cream or vaseline on the spot to keep it soft.

A Pill's the Thing for Constipation

But Be Sure It's Beecham's!

A good pill is the best laxa-tive, and the simplest and safest form of medicine. Beecham's Pills are easy to take,—place on the tongue, a sip of water and they have gone to do their good work.

Beecham's are purely vege-table, alwaysfresh and tasteless,—you have no disagree-able after effects, they never make gas on the stomach or make you feel sickly. Contain no calomel—are not habit forming.

Beecham's Pills are safe and effective for promptly relieving constipation, sick headache, biliousness, and sluggish liver. Best for all the family.
